Order Instructions

Ordering items can be done through our shopping cart. For instructions, [Shopping Guide](#)

If you prefer you can call (877-535-5646) or email us (Info@LogoSportswear.com) with your order requirements. Don't forget to specify style, color, quantities and decoration options. We will respond back to you with an email written quote. So that we get your decoration just as you would like it, please be careful to ensure the accuracy of the information provided (correct spelling, capitalization & punctuation, color, layout, fonts, logos and any other relevant information). In order to process your order, you must confirm that all information is correct and that it is ok to bill and process. Your item will be customized using the information you provide. Payment for custom orders must be received before work can begin.

If you do not confirm your order, it will be placed on hold until we can verify the information. This is likely to delay your order.

Once items have been decorated, they CAN NOT be returned or exchange unless for defects in workmanship. LogoSportswear reserves the right the size and/or layout of lettering, logo, or design so that it will fit and look attracti item ordered.

From time to time we offer special promotions and coupons. Only one promotion coupon can be applied to each order. Promotions and coupons can NOT be com

Copyright Policy & Sports and College Licensed Apparel

We do not reproduce copyrighted material and can not accept any liability for cop infringement for agreeing to reproduce a customer's order. If you wish to have us reproduce a national brand logo or trademark, we do require written proof that th have permission to use that logo or trademark.

We will NOT decorate any of our apparel products with licensed college or profes team sports logos such as the NBA, MLB, NFL, etc. These require special licensi agreements with the colleges and sports leagues.

Thank you for your hard work in getting the jackets done on time. They look wonderful!

Thanks from all of us at American Idol!

Artwork Specifications

Using our upload feature, click and browse for your logo art. It is preferable to use vector images such as Adobe Illustrator, (.ai), Corel Draw, (.cdr) and Illustrator .eps. We will accept other formats like BMP, JPG, GIF, EMF, and WMF we highly recommend vector images. In case of difficulty you may email artwork as a file attachment.

[Logo Upload Tool](#)

Image Size & Resolution

Be aware that images cannot be printed larger than they come to us. Best results are obtained from images that are high-resolution (300 dpi or greater) and larger than the area you request them to be printed into. Images taken from web sites are not high resolution and cannot be reproduced well on a T-shirt.

Additional Information

Please don't create your art in a word processing program! Such a design usually ends up having to be recreated almost from scratch in the correct program. It is unfortunate when someone spends a lot of time and effort creating a design, only to find out after it is finished that the design can not be used because it was created in the wrong program like Microsoft Word comes with a good selection of clip art, and allows you to create graphics, shapes and text effects in many colors, but it is difficult (and often impossible) to print color separations from word processing programs so you wind up with a design that looks great on your monitor, or prints out nicely on your ink jet printer, but is unusable as art for screenprinting. Also, please don't change the format of your design just to make it easier to email.

Artwork for transfer printing is affected by the shirt color. For example, on a yellow shirt a blue image will appear green after pressing (and a green image may be distorted). Additionally, the background of transfers will always be clear so white does not print. White areas of the design will print clear, thus revealing the color of the shirt. For example, if you have a blue shirt, white areas in the design will show the blue color of the shirt.

Creative Custom T-shirt Design Service

If you want to get the most out of your next event, use our experienced t-shirt graphic designers. They would be happy to help you create that special, memorable tee shirt design, sweatshirt design, banner design, etc.. Settling on a custom t-shirt design is easy. Planning the creation of the tee shirt design properly, upfront, can save you time and money on your t-shirt design project.

[Custom T-shirt Design Service](#)

Embroidery

Embroidery on your garments can include text and graphics. With each embroidery purchase you purchase, you can specify a custom logo, straight text, or up to two lines of text. You can have your own custom logo conveyed in a rich, three-dimensional, embroidery format absolutely FREE when you purchase any one style of our garments. This is a savings of \$95! We're willing to make the investment in order to build a long-term relationship with you and your company.

Instant Embroidery Logos

<http://www.logosoftwear.com/clipartembroiderydesigns.php>

LogoSportsweat.com has compiled a huge library of instant clipart embroidery designs and embroidered designs. Create one-of-a-kind logos for your business, family or sports teams, etc. without minimum order or setup fees. Prices on our site include

embroidered design on the garment. Quantity discounts do apply. Each design has a unique ID number that you will need to enter when you personalize your embroidery order in your shopping cart. For instant embroidery logos, the first line of text will be arched over the logo you choose, and the second line will be straight under the logo.

LogoSportswear.com Online Font Listing

LogoSportswear.com has also prepared a list of readily available fonts for you to choose from, if you don't know the name of the font your logo uses, look for it on our list or choose a similar one and let our Sales Representative know of your choice!

[LogoSportswear.com's Online Imprinting Fonts List](#)
[LogoSportswear.com's Online Embroidery Fonts List](#)

Embroidering Caps

For our custom caps we only offer embroidery decoration only. Prices on our website include one front location embroidery. Additional locations will add to price. Maximum embroidery size for custom caps is 4.2" w x 2.1" and visors is 4.2" w x 1.1". Maximum letter size 2". The smallest letters that can be embroidered is .25" high.

Imprinting and Screenprinting

LogoSportswear.com offers the most advanced imprinting capabilities available anywhere. We can turn your one-color, two-color, or full color photographic artwork into an imprint on a garment without minimum orders or set-up charges. (call if you need more than 2-color work)! The printed application we choose is based on your quantity of garments and the artwork you require.

For custom imprinted shirt pricing information, you can visit our custom shirt pricing calculator and custom printed shirt pricing grids.

[Custom Imprinted Price Calculator](#)
[Printed Shirt Pricing Grid](#)

Imprinting

- Full-color graphics without minimum orders and set-up fees was unheard of **UNTIL NOW!**
- For orders less than our Intro Special quantities, your custom graphic gets outputted on full-color thermal transfer paper and then heat imprinted on to T-shirts, mousepads, and mugs. For one color work we use a Cad-Cut Thermal process that is as durable as screenprinting. Maximum size of imprint is limited to 8.5' X 11' or 11' X 8.5'. Transfers also allow for fill-in capability after a previous order has already been delivered. LogoSportswear.com offers a fast, one-turnaround.

Photo Printing

- You can send us any digital photo and we will create a personalized one-color T-shirt, mouse pad, or mug for you!
- Just [upload](#) your logo or E-Mail it to Info@logosportswear.com as an attachment. (Please be sure to reference your order number in your email if you send it as an attachment.) Your graphics should be in JPG, JPEG, or GIF format. They should be actual size or larger, with a resolution of 150dpi or greater. At least 300dpi is recommended.
- We will then imprint your photo onto a heavyweight, 100% cotton white T-shirt, mug, or mousepad.
- For FAQ's about custom logo creation click [here](#).

Screenprinting

- Screenprinting is more durable and color vibrant than color transfer imprint. However there are minimums required in order to make this process cost effective. Those minimums are much lower than traditional custom suppliers. Maximum of imprint is limited to 12" X 12". Choose our Intro Specials for low minimum screenprinting options.
- Screenprinting Intro Specials!
Unlike conventional custom companies, LogoSportswear.com seldom require set-up fees. If you act now you can take advantage of our incredible "Intro Specials" that are being offered for a limited time only. For the very low price of \$199., you may choose (12) shortsleeve or (9) longsleeve Beefy T-shirts (garment color must apply) screenprinted in up to 2-colors, with your custom logo/graphic. The set-up AND printing are BOTH FREE! (Click here link to Special page) for more information.

LogoSportswear.com Online Font Listing

LogoSportswear.com has also prepared a list of readily available fonts for you to choose from, if you don't know the name of the font your logo uses, look for [this page](#) or choose a similar one and let our Sales Representative know of your choice!

Custom Banner & Vinyl Sign FAQ's

For over ten years, LogoSoftwear has been making all types of custom banner signs in various colors and shapes. Some of the key questions to consider when purchasing a banner are: what type of banner do I need? What are the factors that determine the size of the banner needed? And how do I install my banner? We examine these questions and offer you information about the basic banner types we offer: Full Color Digital Banners or Cut Vinyl Banners.

Full Color Digital Banners

It used to be too expensive to print full color on large formats like banners. Digital technology has spawned new cost effective ways to print full color banners and at the same time with maximum impact. Our digital printers provide great color resolution at a reasonable price. Our state-of-the-art digital printers print your graphics in large formats and at sharp resolutions.

If you would like to have computer generated artwork or photos reproduced or want to offer multiple colors this process is for you. According to Marketing Insights, color increases visibility and recall by up to 40%. For digital full color banners, artwork supplied in bitmap images at the size you wish the banner to be in a resolution of 300 dpi or higher. We also have banner backgrounds and photo clipart that is available for you to combine with text to make your banner stand out.

Cut Vinyl Banners

Generally for basic banners needs, cut vinyl banners can give you your best bang for the buck. Using your vector artwork or using our layout designers, you'll be assured that your custom vinyl banner gets noticed. Computer cut vinyl banners are "adhesive back stickers" cut into a particular shape. A computer plotter is used instead of templates and dies and cuts adhesive vinyl using the computer cutter. The lettering/graphics are transferred by hand and applied to the vinyl banner material.

If you are looking to do a banner with basic text and one of two colors then this banner is for you.

can be the least expensive. For vinyl-cut graphics, artwork will be made into vect outlines, curves). We prefer artwork in this format. These files are often are creat CorelDRAW or Adobe Illustrator and have file extensions such as .eps, .ai, and .

How Are Banners Priced? Simple vs. Complex Designs

One of the first things you need to know about banner making is that size matters: larger the banner the greater the expense! There are different methods of banner where the quantity made or the complexity of the artwork will determine whether cut vinyl is most cost effective.

We sell digital full color banners by the square foot. For cut vinyl banners, our sin custom banner and sign pricing system breaks down lettering and sign pricing be simple and complex designs. Simple designs are generally basic lettering and on signs while complex designs include a logo or graphics and can be up to 3-colors Choose the simple or complex option appropriate to your graphics need and ther to checkout. For vinyl-cut graphics, artwork will be made into vectors (i.e. outlines: curves). We prefer artwork in this format. These files are often are created in Cor or Adobe Illustrator and have file extensions such as .eps, .ai, and .cdr.

Chart To Consider Viewing Distance

Always ask yourself, "How far away will the banner be from the viewer?" For inst: Grand Opening banner will be on the front of a business with a large parking lot t the storefront and the street, the letter height must be large enough to be viewed drivers on the street. Also, keep in mind that a driver only has about 1.5 - 3 secon read a message while in motion. The chart below will help you determine the cor: height vs. viewing distance.

Letter Height	Readability Distance For Maximum Impact	Maximum Readability Distance
3"	30'	100'
4"	40'	150'
6"	60'	200'
8"	80'	350'
9"	90'	400'
10"	100'	450'
12"	120'	525'
15"	150'	630'
18"	180'	750'
24"	240'	1000'
30"	300'	1250'
36"	360'	1500'
42"	420'	1750'
48"	480'	2000'
54"	540'	2250'
60"	600'	2500'

Below are answers to commonly asked questions. After reading these, if you still additional assistance, please email us at Info@LogoSportswear.com

Q. Can I get a special size banner?

A. Stock sizes are specified and are the most commonly used. Call if you need a

size not listed.

Q. Can I do second side personalization on banners or signs blanks?

A. No to banners but yes to sign blanks such as coroplast or aluminum. Add 50% price for second sided printing or vinyl lettering.

Q. Do the banners have holes for hanging?

A. Yes, your banner will have metal reinforced holes (grommets) every 2-4 feet.

Q. Do the banners have slits for wind?

A. No, our banners are heavy and will hold up fine in regular to moderate winds. bungee cords instead of, or in addition to rope, will relieve some strain from heavy winds. Our production process does not allow us to individually cut the banners. Always free to cut them yourself with an exacto or utility knife, but if hung properly exposed to gale force winds, it should not be necessary.

Q. Will I get a proof for my banner?

A. We email a proof (color picture) for you to approve before going into production. We will need you to reply back your confirmation before we proceed further.

Q. What if I don't like the design on the proof you send?

A. We're happy to take suggestions on changes and revise your proof to make you satisfied. Significant alterations may require art charges.

Q. How long does it take to get my banner?

A. Normal ship time is 5-business days; We will ship in 2-3 days for an additional premium. For tight deadline work, be sure to call or email us before ordering. We have a definite delivery commitment.

Q. How do I know when my banner has shipped and how can I track it?

A. When your banner is shipped via UPS, we will email you a UPS tracking number.

Q. How much is shipping?

A. Shipping is determined by the order size in dollars. Chart is located here: [Shipping Guide](#)

Q. How do I store my banner?

A. Always roll your banner with the PRINT OUT. Don't store in extreme heat, like the trunk of your car. Never fold. With these precautions, your banner can last for years.

Q. Will your letters withstand winter elements?

A. Yes. The sun is their worst enemy. Over many years the sun will work away at the letters causing them to eventually fade & curl. This usually takes at least 5 years, sometimes as much as 10 or more.

Q. Do you have a banner Warranty?

A. Our Banners carry a 1-year warranty against fading or discoloration. Since weather, installation & other elements beyond our control can have a drastic effect on how long banners will last without tearing, we do not offer any warranty against tearing or physical damage to our banners.

Q. How Do We Install The Banners?

A. Our banners come with attached grommets every 2 feet along their width so you can securely mount them to a variety of surfaces. You can either mount your banner to a wall using screws and washers, or you can run a rope through the grommets to attach your banner to two poles. If you are in an extremely windy area, be sure to run the banner through all of the grommets. Banner And Sign Track Kit can be purchased separately. This Banner Trak eliminates sagging and keeps banners straight and taut. [Custom Banners.](#)

Outdoor banners can be fastened against a building with screws and washers through the grommets. Against a chain link fence, fasten through the grommets with nylon wire. To tie between posts or trees, thread stitched rope threaded through entire length so that you can tie up and install by pulling on the rope. Indoor banners in cases are easy to install, as they are placed in locations where they are viewed close. For permanent indoor digital print banners installations, wall mounting is a relatively simple process. You can wall mount their banners by use of woodscrews through washers and grommets. Temporary installations are very common for indoor banners include tradeshow, sporting events, and career fairs. Hook and loop velcro fasteners be installed on your banner to make a simple and easy install. S-hooks are used for temporary banners from above, with preinstalled grommets. Additional temporary installation options include pole pockets with wood dowels or PVC rods.

Q. Can I remove already applied Vinyl from a banner?

A. In most instances, it is possible to remove vinyl lettering with no residual damage to the applied surface. While this is typically the case, different substrate materials can react in different ways, so if you're unsure of the resulting reaction, it's important to test a small inconspicuous area of your surface before applying the following techniques to the entire area. The upside is that most surfaces, including vehicles, respond well to the vinyl removal technique outlined below, with no resulting damage to the surface.

Returns & Cancellations

Before placing your order, please make sure your personalized order is complete without errors. All orders are processed as they are received. We are not responsible for any incorrect sizes, names, web addresses, e-mail addresses or words. Once an order has been personalized, it can not be returned except for our errors or defects in workmanship.

A 15% Restocking Charge will apply to all cancelled orders not yet personalized or ordered blank or as samples. Contact Customer Service for return instructions.

For defects in workmanship, please call 1-877-535-5646. If you are outside the U.S. please call 203-272-4883 for a return authorization. We will immediately repair your order (s). If you are not satisfied with an item, please contact us within 30 days.

Contact Us By Phone:

1-877-535-5646 toll-free. If you are outside the U.S. please call (203) 272-4883.

Promotional logo items and custom promotional products usually bear a logo, slogan, or message, known as the imprint. There are many different ways custom promotional products can be imprinted, depending on the material from which it is made. Some common methods of imprinting include printing, screenprinting, embossing, embroidery, hot stamping, pad printing, etching, engraving, die-casting, etc. The message itself can be as simple as a company logo or as complex as a mission statement. Because custom promotional logo items are generally purchased in quantities, they usually cost less than the recipient thinks they do, giving them a higher perceived value.

There is really no limit to the type of custom promotional product that can be used to communicate a message. Promotional logo items include calendars, mugs, pens, bumper stickers, key tags, etc. Our professional sales consultants are here to help you get the most bang for your promotional logo item buck. **Call us at 877-535-5646 for information.**
